EXECUTIVE SUMMARY

IT Support Engineer and System Administrator with 15+ years of enterprise experience across financial services, energy, and technology sectors in Kuwait, now advancing into cybersecurity operations. CompTIA CySA+, Microsoft Azure Administrator, and Cisco CCNP/CCNA certified. Proven track record managing Microsoft 365, Active Directory, and enterprise networks, with hands-on SOC-style lab experience in SIEM monitoring, threat detection, and incident response. Seeking a Cybersecurity Specialist, SOC Analyst, or Senior IT Infrastructure role in Europe or the Gulf.

PROFESSIONAL EXPERIENCE

- **IT Helpdesk Manager / IT Administrator**
Middle East Financial Investment Company (KMEFIC) — Kuwait City · Nov 2024 – Present
 - ▶ Administer Microsoft 365 environment — Exchange Online, SharePoint, Teams, Azure AD, and Intune device management
 - ▶ Manage Active Directory, Group Policy, and Tier 2/3 infrastructure support with endpoint security oversight
 - ▶ Deliver SLA-based IT support integrated with cybersecurity monitoring practices
- **Computer Engineer / ICT System Administrator**
Masar Al-Jazera Trading & Contracting Co. — Kuwait · Dec 2017 – Apr 2024
 - ▶ Managed servers, network infrastructure, and IT operations across multiple company locations
 - ▶ Implemented security policies, vulnerability assessments, and backup/disaster recovery solutions
- **TSD Computer Technician / IT System Administrator**
Arabian Business Machines Co. W.L.L. (Toshiba Partner) — Kuwait · Sep 2005 – Jun 2017
 - ▶ Delivered enterprise IT support and infrastructure services for corporate clients
 - ▶ Managed hardware/software troubleshooting, TCP/IP networking, VPN, and connectivity — Certified Toshiba Certified Engineer (TCE)

CYBERSECURITY LABS

Security Home Lab
Wazuh · Kali Linux · Windows Server · VirtualBox
Built a monitoring environment for detecting suspicious activities.

Windows Server Lab
Active Directory · GPO · Security Policies
Multi-tier AD environment with role-based access control.

Vulnerability Assessment
Nmap · Nessus · OpenVAS
Risk scoring and remediation roadmap for a simulated network.

EDUCATION

Bachelor of Computer Science & Engineering
North South University, Dhaka, Bangladesh — 2005
